# Kingsway Academy

---

Kingsway Academy is a Canadian international private boarding high school located on Western University campus in London, Ontario. Western University is one of the top universities in Canada (QS Ranking No. 151, 2026). Kingsway Academy integrate students' life into the university by using teaching and living facilities, cafeterias, free campus shuttle bus services, selected university student club activities, and local community involvements. Kingsway Academy offers Ontario Secondary School Diploma (OSSD) courses for grade 10-12, which well prepares international students for future studies in North American top universities.

Our summer camp offers a 2-4 week immersive experience designed primarily for international students aged 10-17. The program combines 15 hours of weekly ESL instruction with a rich variety of activities and excursions. Camp highlights include our Multicultural Festival where students from different countries showcase cultural diversity through interactive activities, hands-on FTC/FLL robotics competition preparation courses tailored for various age groups, and practical 3D printing technology workshops.

Students will benefit from academic lectures delivered by field experts and university professors covering STEM, robotics, and business case studies. The program also features exciting excursions to explore Canada's natural beauty and cultural attractions. At Kingsway Academy Summer Camp, we're committed to creating unforgettable summer memories where learning meets adventure and cultural exchange!

# ACTIVITIES

## ON CAMPUS

Bubble soccer on the lawn on campus

Archery on the lawn on campus

Doing sports and playing games during free time. Students using English to communicate and cooperate with others in team works. They make new friends very easy in our summer camp.

The front and back lawn on Kingsway campus, the stadium of Western U, and other sports fields are open to be used all the time.

The 3D printing experience allows students to learn fundamental 3D modeling knowledge and printing technology principles. They design and produce customized keychains, creating unique summer camp souvenirs to treasure.

# Preparations

Kingsway staffs and summer camp group leaders discuss preparation works and the event arrangements in advance.

# BIG EVENT

## MULTI-CULTURAL FESTIVAL

Group leaders and students have several meetings to design performances and making props.

Every group prepares crafts, performances, and cooking skills seriously.

# Presenting

Students decorate their booths with all their works.

Performances

memories with new friends

# Summer Camp Schedule

DAY 28	Group B & D students depart from Toronto Airport to home countries									

# Theme 2026

---

## **STEM, AI & Robotics (2-3 weeks)**

---

It delivers students with an immersive learning experience in cutting-edge technologies.

Blending theoretical knowledge with hands-on practice, it features not only expert lectures by STEM, AI and robotics professionals and professors—giving students industry insights—but also specialized training courses for the globally renowned FTC/FLL robotics competitions. Participants will learn basic programming, robot assembly and debugging, while enhancing teamwork and problem-solving skills through simulated competitions. This dynamic theme ignites technological curiosity while developing critical innovation and teamwork skills essential for future STEM careers.

## **Experience Canada (4 weeks)**

---

It offers international students a transformative 4-week experience that blends intensive ESL instruction with authentic cultural exploration and hands-on learning in AI & robotics, STEM, and arts. Through interactive workshops, outdoor adventures, and meaningful exchanges with local communities, participants not only enhance their English proficiency but also develop global competencies while experiencing Canada's inclusive education system and multicultural society. This theme cultivates both academic growth and personal development, leaving students with improved language skills, practical technological abilities, lasting international friendships, and the confidence to thrive in our interconnected world.
