Summer Camp In A University Setting

Kingsway Academy is a Canadian high school located on the campus of Western University in London, Ontario.

Every summer, Kingsway welcomes young people from Asia, Latin America, and Canada to learn, live, and explore together. The result is a genuinely multicultural camp where language learning, university life, Canadian experiences, and new friendships happen every day.

Friendships Make English Real

Learn from each other

Students share food, music, crafts, stories, and traditions. The Multicultural Festival brings the whole camp together in one signature event.

Speak with a purpose

English is the shared language of camp. Students use it in class, during projects, on trips, at meals, and while building friendships.

THE OUTCOME

More confidence, broader cultural awareness, and international friendships that continue after camp.

Discover What Interests You
